Reserved Seats 25c

Proceeds above expenses to go for class work, recital music, etc.; the disposal of funds to be published in the Mansfield Mirror.

## Come

Encourage the Pupils

### Y. M. B. C.

The Young Men's Business Club held their regular meeting Tuesday evening and several matters received attention. Committees on park improvement, park finances, fair circuit and carnival finances reported. Some arrangements were made relative to the meeting of the Frisco agents here. A membership committee were appointed, and numerous other things received attention. If you are not a member, join the Young Men's Business Club and help in the work of boosting Mansfield. Your help is needed.

Wm. Fuge and wife are visiting their son, Fred Fuge, at Newton, Kans. Mr. Fuge is one of the county's most prosperous and substantial farmers. Mr. Fuge and wife came from Pennsylvania in 1870 and this is Mrs. Fuge's first railroad ride in the 43 years since her trip from the east.

**Proof of Bird's Age.**  
While life periods for birds have been variously stated at from two years for a wren to one hundred for the eagle and crow, such figures have lacked authority. Prof. L. Petit has lately brought to the notice of the Zoological society of France some birds of accurately known age, and these include a sparrow of eight years, a blackbird of eleven, a small cardinal of fourteen and an Amazon parakeet of twenty-five.

**Singing at Work.**  
Dr. Johnson was annoyed to find in the Hebrides that the strokes of the sickle were timed by the modulations of a song in which all the harvesters joined. In the days of the hand looms most weavers crooned over their work. Dairymaids used to sing on the milking stool, not only to lighten their labors but also because the cows were held to yield better milk when cheered by a tune.

**Roman Relics in England.**  
Great interest has been aroused in the Roman discoveries at Kenchester near Hereford, England. Many coins dating back to the reign of Constantine between 320 and 350 A. D. have been found. Pottery similar to that made before the destruction of Pompeii, in 79 A. D., and attributed to the potters who worked during the reign of Antoninus Pius, has also been discovered.

**Little Arithmetic Problem.**  
If twelve persons were to agree to dine together every day, but never sit exactly in the same order around the table, it would take them 13,000,000 years at the rate of one dinner a day, and they would have to eat more than 479 million dinners before they could get through all the possible arrangements in which they could place themselves.

**To Take Paint Off Glass Easily.**  
There never was—and probably never will be—a painter who painted the window frames without splashing at least a few specks of paint on the glass. To leave them on the glass stamps one a shiftless person. To remove them, dissolve a couple of spoonfuls of soda in hot water and wash the spots with this, using a piece of soft flannel cloth.

**Something Not Generally Known.**  
Scott—"Say, old man, I'm stuck on a quotation. Who was it said: 'A horse! A horse! My kingdom for a horse!'" Mott—"I thought everyone knew where that came from. That's what Absalom said when his horse ran under the tree and left him hanging by the hair to a limb."—Boston Transcript.

Go to Bertram's second-hand store for good bargains in new and second-hand goods. We have a choice selection to select from.—Adv.

W.H. Lynch, A. M., is a new subscriber to the Mirror. Prof. Lynch, who is connected with the State Normal School at Springfield, passed through here last week on his way to Gainesville in the interests of the school. The professor is a good friend of the newspapers and is a subscriber to papers galore, but of course, his list was not complete without the Mansfield Mirror.

## BEATRICE Cream Separator

### Efficiency

Efficiency in a Cream Separator is measured by the amount of work the machine will do and the way it does it. With the BEATRICE you can skim more milk, in the same time, and skim cleaner, than with any other Separator.

### Economy

The BEATRICE is the Separator for real economy, because, capacity considered, the price is lowest; because it gets more cream out of the milk, and because it saves time and labor.

### Durability

The construction of the BEATRICE aims at strength and durability. All materials used are the best. It is the strongest, best looking and simplest in construction. Trouble in operation is almost done away with and cost of repairs is very low.

### Price

In the BEATRICE you get more than twice the skimming capacity for the same money—and we absolutely save you \$25 to \$40. Prices: 600 to 650 lbs. capacity, \$55; 750 to 800 lbs. capacity, \$65; 900 to 1000 lbs. capacity, \$75. Free with each Separator—BEATRICE Cleaning Brush, Washing Device and 1-Piece Steel Pail.

Come in and see the BEATRICE Cream Separator for yourself.

MARKET REPORT	
Eggs, per dozen	13 1-2c
Butter, per lb.	16c
Butter Fat, per lb.	25c
Old Hens, per lb.	10c
Springs 1-2 lb. and under	20c
Springs over 2 lb.	10c
Fat Turkeys, owing to quality, lb.	10c
Ducks, per lb.	10c
Geese, per lb.	5c
Green Hides, per lb.	10c

### COMMENCEMENT

The commencement exercises of Mansfield High School will be held in the opera house, Saturday, May 17, at 8 p. m.

There are ten graduates—eight boys and two girls. This is quite different from the usual course of events, the girls generally being in the lead in the list of graduates, but in this case the boys outnumber the girls 4 to 1.

### Program

Music	Orchestra
Invocation	Rev. J. J. Wolf
Music	[a] The Happy Miller Veazie
	[b] The Slumber Boat Gaynor
Girls Glee Club	
Essay	The Panama Canal

### The New Cartoon.

A local philosopher, laughing over one of Ralph Wilder's cartoons in The Chicago Record-Herald the other day, remarked that the cartoon is mightier than the sermon. Certainly the humorous picture that has come to be so popular a feature of the big city newspaper often hits off the news of the hour with a veritable stroke of genius.

The whole art of the cartoonist has become more kindly, less slashing, than in the days when Thomas Nast began to make it a power in journalism. The popular cartoonist no longer hits somebody over the head for your amusement, but tickles you under your own ribs somewhere near the heart. He does it by illustrating the little humors of human nature of domestic life, of boy nature, of feminine foibles—any sort of homely or timely joke that both husband and wife can laugh over at the breakfast table.

One of the gentlest, cleverest and happiest cartoonists of this new school is Ralph Wilder, whose daily picture on the front page of The Chicago Record-Herald is an unending delight. Mr. Wilder's drawing is unsurpassed, and his humor, if not side-splitting, always has a "point" with a smile in it. His pictures help to brighten life and send one to one's task more cheerily. They help to explain why The Record-Herald is the favorite family newspaper in the west.

## A HIGH-SPEED ROMANCE

## STANTON WINS

By ELEANOR M. INGRAM

An automobile story filled with all sorts of fun, danger, disaster, despair, triumph, love, hate and perplexing incidents. A light running narrative that spins like a high-priced motor car—and grips like a reliable clutch.

## OUR NEW SERIAL STORY

Don't Miss It

### FAIR CIRCUIT ARRANGED.

Mansfield—Sept. 24, 25, 26, 27.  
Ava—October 1, 2, 3, 4.  
Mountain Grove—Oct. 6, 7, 8, 9, 10, 11.

Hartville—Oct. 14, 15, 16, 17, 18.

Cabool—Oct. 22, 23, 24, 25.

The object of the fair circuit is to secure higher class attractions than it would be possible for one town acting alone to secure—and at a saving in price. A company can afford to come to five towns on a circuit at less expense to each town than it could to one town. It is the idea of the towns in the circuit that a considerable amount of money can be saved on the attractions secured and that more money can be obtained from the concessions and this seems to be a most practical idea. Good attractions for less money or better attractions for the same money as that paid for inferior attractions formerly, is the plan. It is planned to secure nothing but attractions of superior character. An airship is among the possibilities for the fair circuit.

It is to be hoped that the people of Mansfield and vicinity will contribute liberally toward the fund for Mansfield's second annual carnival and stock show, so that the affair may prove an unqualified success. The committee in charge should know how much money they will have to spend, so that they may secure attractions accordingly.

### COTTONSEED CHANGED THE FLAVOR.

Prize letter in Mail and Breeze. Mr. Editor—Several times I have had trouble with butter getting strong when the cows were fed Kaffir fodder. On different occasions I would be making fine flavored butter right along until the Kaffir was introduced into the feed and almost immediately the butter was "off" in flavor, and in a short time would get decidedly strong. At one time I was forced to drop all my butter customers, but about the same time a lady from Oklahoma who was visiting me told me to get a sack of cottonseed meal and feed to the cows. We were amazed at the result. The flavor of the butter changed and was as good if not better than summer butter. Not only this but the yield of butter increased.

When cows are fed cottonseed

meal and the butter is made under perfectly sanitary conditions, as all butter should be, it will keep sweet and good for a long time. Recently, while moving, it was impossible for me to churn for three weeks. The flavor of the butter was unimpaired while the butter made when cows were fed Kaffir corn fodder without the cottonseed meal, became strong in a few days. A pint of cottonseed meal to each cow twice a day is about the right amount.

Mrs. W. H. Utley.  
Maple City, Kans.

### A CASH OFFER.

The Weekly Kansas City Star is made to be of special value to farmers and stockmen. Its market quotations cover items of particular interest to such. There is a practical farmer in charge of the Farm department. The services of Chaperon are used for the benefit of the farmer's wife and daughters, giving them helpful suggestions concerning many perplexing matters of etiquette and social usages. "Answers" is an unique feature which replies to general inquiries received from subscribers. Short and serial stories appear from time to time, these stories later when printed in book form sell in book stores for \$1.50 per copy. There is no beer or whiskey advertising. No hurtful patent medicines or fake doctors are exploited. The entire news of the whole world is printed; yet, in such concise form the busiest man may, by a few hours reading a week, keep well abreast with what is going on.

Mansfield Mirror and Weekly Kansas City Star both one year for \$1.15.

### TALKS ON DENTISTRY.

When Cain asked the question, "Am I my brother's keeper?" he started something which has never been stopped.

It should be our contribution to the almost universal effort to protect and uplift mankind.

We should stand for morality, cleanliness and community extension.

Call it civilization. Am I my brother's keeper? How about it?

Health, appearance and temper depend largely upon good teeth.

Some narrow-minded individuals can see in this only a cleverly planned crusade for business.

We can well disregard such imputations, for the rule—A STITCH IN TIME SAVES NINE—was never more truthfully applied than to dentistry.

We believe in education, for the educational campaign is beginning to bear fruit.

Parents are being taught to save their children's teeth.

Are you doing your duty toward your children?

More care of the teeth in youth means, in future generations, a nation of better teeth.

Have your teeth examined and saved.

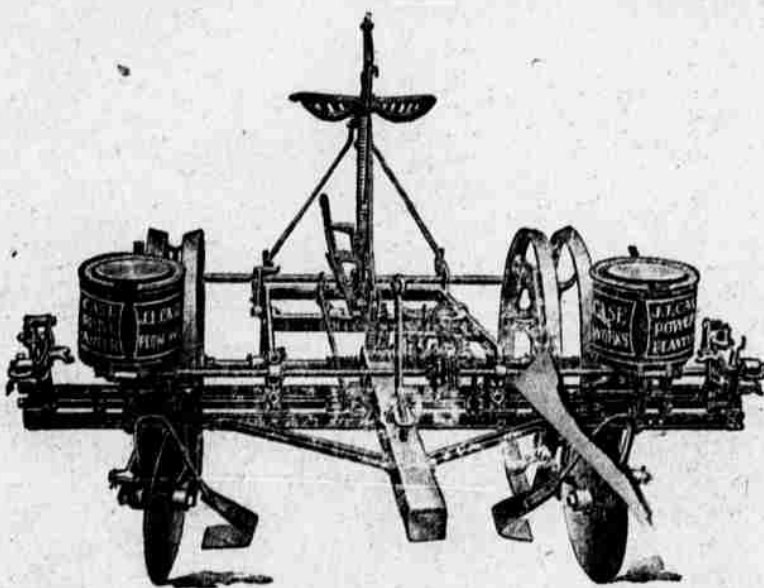

Don't wait till they have to be extracted.

Examination free.

Over Fuson's drug store, Mansfield.

F. H. RILEY, D. D. S.
